

**For Immediate Release:**

## **9 to 5 Seating Introduces Vesta Ergonomic Mesh Seating at 2009 NeoCon World's Trade Fair**

**Merchandise Mart, Chicago, IL - June 15, 2009** - Today at the 2009 NeoCon World's Trade Fair 9 to 5 Seating introduced its new Vesta line of mesh office seating. Vesta exhibited high design and style normally found only in more expensive high end seating lines. The Vesta featured a mesh back with matching mesh seat. 9 to 5 Seating noted the series may also be ordered with a foam seat upholstered in any of 9 to 5 Seating's fabric offerings from Momentum Textiles, Designtex, Maharam, Knoll Textiles or 9 to 5 Signature.

9 to 5 Seating showcased Vesta's eye catching aluminum structure which serves as a foundation for the chair's ergonomic support. 9 to 5 Seating informed those visiting the exhibition that the attractive metal skeleton will be offered in four finishes: polished, black, silver and white. The X1 control underneath the seat is operated by remote levers connected with cables which allow simple, easy access to ergonomic adjustments. Vesta also featured a unique headrest with 3 way adjustment via an internally developed all metal mechanism. The A30 arm was designed and built in house by 9 to 5 Seating and offers four way adjustment with all controls integrated into the arm pad for easy access.

### **Availability**

Vesta will be available January 1, 2010 in all configurations with mesh seat. The foam upholstered seat not available until February 22, 2010. List pricing for mesh seat and back in any finish \$850 or \$950 with optional headrest. Pricing with foam upholstered seat not yet available.

### **About 9 to 5 Seating**

9 to 5 Seating, founded in 2001, is the mid-market seating division of Cyrus Business Furniture which has served the office furniture industry since 1982. 9 to 5 Seating's unique approach to the mid-market includes in house manufacturing of components normally purchased by other manufacturers. In the company's 310,000 sq/ft of manufacturing space processes such as foam & plastic injection molding, electrostatic wood pressing, CNC routing, metal stamping and quality testing are all performed in-house on equipment owned solely by 9 to 5 Seating. This highly involved approach yields the ability to stand independent of suppliers as one organization committed to converting the finest raw materials into high quality office seating solutions with substantial cost savings which are always passed onto the consumer.

### **About NeoCon® World's Trade Fair**

NeoCon® World's Trade Fair is the leading North American exposition of new cutting edge products designed to furnish and equip commercial spaces. Those attending come to discover thousands of innovative products and resources for corporate hospitality, health care, retail, government, institutional and residential interiors from more than 1,200 showrooms and exhibitors. The exposition's owner, Merchandise Mart Properties, Inc., is one of the largest trade show producers in the world. Their large and competent staff of 540 people is fully capable of all aspects of trade show management.
