seating

## FEATURES

---

### WORK, REVOLUTIONIZED

In 1984, Steve Jobs introduced US consumers to Apple® and transformed the way we work. That same year, in Europe, designer Peter Opsvik created the HÅG Capisco chair and altered the way people found comfort while performing that work. HÅG Capisco Puls is the next generation of the famed HÅG Capisco's evolution.

### THE EXTENDED FAMILY

HÅG Capisco Puls is a modern take on the iconic original. Featuring sleek, contoured lines in a polypropylene construction, it provides the dynamic movement benefits of HÅG Capisco in a slim silhouette. Its lighter weight makes it perfectly suited for flexible spaces like team rooms and touchdown spaces.

### WHERE TO NEXT?

In imagining the HÅG Capisco chair, legendary designer Peter Opsvik boldly declared, "The best posture is always the next one." That means enabling you to not just choose from a pre-set number of chair settings, but to use the chair however you need. It's about breaking out of the status quo to find the sweet spot and "working outside the box."

### SUSTAINABILITY

HÅG and 9to5 Seating share a commitment to the environment. HÅG Capisco Puls is built with over 39% recycled material and is 90% recyclable. All polypropylene is 100% recycled. The chair is easily disassembled and features recycling symbols for easy sorting.

### **BODIES IN MOTION**

HÅG Capisco Puls offers the ultimate in self-directed comfort, encouraging movement and change. Treaded foot plates on the base give you a place to either rest your feet or help you easily shift into your next position, whether that's perching, sitting sideways, or even facing backwards. Of course, there's always traditional sitting too.

### **ANY DESK, ANYWHERE**

With a choice of three cylinder heights, HÅG Capisco Puls fits any workstation and accommodates multi-positional whether you sit at a traditional desk, perch at a sit-stand desk or alternate between standing and sitting. No other task chair is so well adapted to sitting at different heights. An optional foot ring is available for extra support. HÅG Capisco Puls has a 300-lb. rating and is covered under 9to5 Seating's industry-leading warranty.

### **THE ICONIC SADDLE-INSPIRED SEAT**

HÅG Capisco Puls is designed with a curved seat reminiscent of a saddle to promote natural upright positioning. Slightly narrower than the original HÅG Capisco, the contours open up the hip angle, which in turn extends the spine and opens the chest. The seating experience helps fight fatigue throughout the day, allowing you to perform at the top of your game.

### **WRITE YOUR OWN COLOR STORY**

HÅG Capisco Puls comes in three plastic colors: Black, Petroleum, and Light Gray. For upholstery, you can opt for a seat pad or a removable seat cushion in the textile of your choice.

## HÅG IN BALANCE®

Trademarked technology supports continuous motion and maximum adaptability for a variety of users. Each HÅG Capisco Puls comes standard with a seat slider, height-adjustable back, two-position back lock, tension adjustment and seat height adjustment.
