FEATURES

CLASSIC STYLING
The Core shows its approach with a clean skin profile and super-tailored upholstery over tilting seating’s trademark in-house molded foam.

RICH WITH OPTIONS
Core offers four different arm options in addition to armless and guest models. Design choices include two accent color finishes, hundreds of upholstery choices, and three base finishes. Core matches function & comfort with style and sophistication for any workspace.

THREE CONTROL CHOICES
Included is one of our new weight balance controls that will self-adjust the back tension to your body weight and movement. Our enhanced knee-tilt control and a high back tension 2:1 synchro with independent back angle lock and built-in seat depth adjustment. The Core can be personalized to meet the ergonomic needs for work stations, collaborative spaces, and everything in between.

All new mid-profile base
Available in molded Gray or Black finish with matching hubless casters or upgrade with the same new mid-profile style in polished aluminum.

CHOOSE FROM OVER 1,000 TEXTILES
offered by C.F. Stinson, Designtex, Maharam, Momentum and 9to5 Signature®. In the rare case we don’t have what you’re looking for, we’ll upholster your chair in any fabric provided to us!

LIFETIME WARRANTY
on all structural and mechanical components. Leather, fabric and foam are warranted against wear through and deterioration for five years.

QUICK SHIP!
Core ships in 5 days in select fabrics, vinyls, L3 and L4 leather.

CORE, THE ESSENCE OF SEATING

The essence of the Core is in the superior comfort and support of foam-over-mesh back construction designed into a thin sleek profile. An inner structural frame and mesh provides the flexible support of a mesh back while the soft molded foam cushion provides classic comfort. Finish this off with a durable plastic outer back with adjustable ratchet making Core the foundation for any office.

EUROPEAN STYLING, AMERICAN INGENUITY

An accent colored durable plastic back is smartly fitted against the finely tailored upholstery. The molded foam cushion covers an internal flexing mesh that allows the thin sleek back to feel firm but comfortable.

Matching accent color 6 WAY ADJUSTABLE ARMS

Contemporary, sleek and with the same accent colors as the back and base these 6-way adjustable arms show great design with ergonomic performance.

W1 CONTROL

A new “sit and forget” weight balanced control that utilizes the weight of the user to balance the back tension. The control has a 3:1 back-to-seat synchronous movement with 2 back lock positions. Perfect for conference areas or passive user applications.

DESIGNERS’ CHOICE BASE AND CASTERS

Newly designed mid-profile molded Nylon bases sit atop color matched 60 mm hubless casters to finish the distinctive style of the Core. Available in Gray or Black finish or upgrade the same style base to polished aluminum.
