

# Expedited Seating for Healthcare Facilities

**READYSHIP**  
for Healthcare

**9to5 Seating is prepared to support** healthcare providers with their COVID-19 response. Whether it's a waiting area,

triage space, exam room, or administrative station, we have it covered with seating solutions that are durable, comfortable, and easy to sanitize to help accommodate a possible influx of patients.

To help you continue to treat patients, we are offering select models that ship in 1, 2, 10, and 15 days. Please request ReadyShip lead times when you place your order. As always, the rest of our products are orderable under standard lead times.

As a result of the COVID-19 national emergency, state and local governments (including local educational agencies and higher education institutions) are allowed to buy supplies directly from the manufacturers that hold a GSA contract. 9to5 Seating is an authorized GSA contract holder (#GS-28F-0013X).

9to5 Seating is proud to assist healthcare facilities and care teams as they treat patients during these unprecedented times. To learn more about our ReadyShip for Healthcare program contact your Dealer Sales Representative today.
